Purchase Area Development District
2017 Local Officials Directory
Mary Anne Medlock, Editor

The Purchase Area Development District offers a diverse collection of services, touching every aspect of life in the Purchase. Human support, community support, information, and special projects - - the blending of these offerings provides a well-rounded approach to meeting the current and future needs of our region.

The Purchase Area Development District is governed by those we serve. Our board of directors includes judge/executives, mayors, and citizen members from throughout the eight counties of the Purchase Region. Over 250 community members actively participate in committees and task forces that provide input and guidance to the program areas they support. Funding for these programs is provided through a blending of federal, state, and local funding sources.

The Purchase Area Development District is one in a network of 15 area development districts serving the Commonwealth of Kentucky. These districts were formed through state legislation to assist in the planning, coordination, and implementation of services.

The preparation of this report was financed with federal, state, and local funds under a Joint Funding Administration Program approved by the Southeastern Federal Regional Council. The PADD does not discriminate on the basis of color, national origin, sex, age, religion, or disability and provides, upon request, reasonable accommodations including auxiliary aids and services necessary to afford an individual with a disability an equal opportunity to participate in all services, programs, and activities.
